

FIGHT TO BANISH THE DELAWARE WHIPPING POST

Congress Bill Proposes United
States Court Action Under
the Constitution.

WASHINGTON, Nov. 11.—Bareback whipping of two Delaware convicts at Newcastle on Nov. 8, brought a resolution from Congressman Evans of Montana to-day proposing that Attorney-General McReynolds bring injunction proceedings against the State of Delaware to enforce the Constitutional prohibition against "cruel and inhuman punishments."

Congressman Evans expected this resolution to save the same convicts from being whipped again next Saturday, and to prevent such punishments elsewhere. Republican Leader Mann expressed the opinion that the question was too important to be decided by a quorumless House and blocked the resolution by an adjournment.

WILMINGTON, Del., Nov. 11.—The two convicts, who on Saturday last received twenty lashes at the Workhouse whipping post and who on Saturday next will receive twenty more, are negroes. They were convicted of entering the house of a farmer and upon being observed by a boy, savagely attacked the lad with a brick, injuring him seriously.

Ten division of sentence of forty lashes into two installments is of recent practice in this State. Formerly sentences of forty and even of sixty lashes, the limit of the law in respect to whipping, were given at one infliction. The whipping post has been an institution of punishment in Delaware throughout both its colonial and State existence. Various crusades for its abolition have been made, but without avail. Formerly the pillory also was provided, but it was abandoned about ten years ago.

WOULD COERCE LONG ISLAND

Expect Appellate Division to Nullify Railroad's Objection to New Road.

The Public Service Commission to-day instructed counsel to apply to the courts to compel the Long Island Railroad to give its consent to the proposed rapid transit railroad along Gravesend avenue to Coney Island. The new route will begin at Thirty-ninth street, Brooklyn. The Long Island owns a surface car line which will be affected by the new line.

Since the signing of the dual system agreement the Commissioners have been seeking the consent of the property owners along the proposed route. The total amount of assessed valuation of this property is \$4,500,000. Consents representing \$2,500,000 have been obtained.

At the Coney Island end of the proposed line the route crosses Sheepshead Bay road, and over property of the Long Island Railroad which is assessed at \$6,800. Although the assessment of the Long Island for a time blocks the plans of the Commissioners, it is understood that the Rapid Transit act gives the Appellate Division of the Supreme Court, in which the case will be heard, the right to nullify the Long Island Company's objection.

New System of Fat Reduction

Here's a new way for all fat people to laugh together at the old bugaboo—Obesity. The saying that "there is nothing new under the sun" does not now apply to fat people any more. Here is something new for them—a new sensation, a new pleasure, a new and graceful figure, easily found by any one who is passing beyond the limits of slenderness. Every one has heard of the Marmola Prescription; that harmless combination of fat-dissolving elements discovered by one of our foremost physicians. Now, from the same high authority, there comes another idea—the idea of confounding these same nice, harmless ingredients into a pleasant little tablet. Taken after eating and at bedtime, they help the stomach to dispose of all the fatty foods, converting them into compact, solid flesh, muscle and energy, without starving or exercising. Marmola Prescription Tablets regulate the entire system—do for you what bodily exercise and self-denial cannot do—and the result is a new, more graceful figure. You can have a new, more graceful figure. Marmola Prescription Tablets are sold by all druggists, or sent by mail to the Marmola Co., Farmer Bldg., Detroit, Mich. A large quantity sufficient to bring lasting results—\$1.00 per box.
